

Volunteer, Veterans, and First Responders Agenda

Voices for Veterans:

Improve access and funding to support home ownership while offering incentives to employ those who have served.

Healthcare for Veterans and First Responders:

Refine the way New York State offers services to veterans by improving access and promoting information on mental illness, which will also alleviate the cost.

Incentivizing Volunteerism:

Promote volunteer recruitment by offering scholarships, tax credits, and tax exemptions.

Supporting First Responders:

Establish means for our first responders to feel supported by enhancing proven practices such as peer support groups and sick leave modifications.

Strengthen Statewide Resources:

Upgrade New York State resources heavily relied on by our veterans by establishing a green alert system for missing veterans and providing funding for veteran-owned organizations.
