

Energy and Climate Agenda

Addressing the CLCPA:

Complete analysis of the exorbitant costs to New Yorkers prior to implementing Climate Leadership and Community Protection Act (CLCPA) mandates that will take away gas stoves

Ensuring Electric Vehicle Safety and Consumer Protection:

Protect our consumers and families from dangerous Lithium fires and prevent forced purchasing of Electric Vehicles

Across-the-Board Energy Production:

Utilize nuclear, natural gas, hydrogen fuels, hydroelectric power, and renewable sources of power generation to ensure grid reliability

Protect Our Land:

Ban deforestation, study the environmental impact of siting solar and wind farms across the State, and prevent the State takeover of farmland

Health, Safety, and Human Rights Protections:

Address liabilities, ensure proper disposal of renewable energy production equipment, and divest from mining companies utilizing child labor
